RAJ SRIVASTAVA

Business Analytics | Data & Business Intelligence

+91 8765280075 • rajsrivastavariz@gmail.com • Noida, India • linkedin.com/in/raj-srivastava-9865132a7

Detail-oriented PGDM (Business Analytics) student with hands-on experience in market research and a year of full-time work as a Marketing Analyst in real estate. Skilled in Excel-based sales and financial analysis, Power BI and Tableau reporting, SQL and data-driven problem solving. Proficient in transforming raw datasets into meaningful insights using Advanced Excel, Power Query, Power Pivot, and interactive dashboards.

SKILLS

Microsoft Excel (Advanced – Pivot Tables, VLOOKUP, Power Query, Power Pivot, Dashboards) | Power BI (Data Modeling, DAX, Visualizations) | Tableau | SQL | Python (Basic) | Data Cleaning & Transformation | Business Intelligence Reporting | KPI Tracking | Sales & Financial Performance Analysis | Statistical Analysis (Basics) | Stakeholder Reporting | ETL Concepts

WORK EXPERIENCE

Market Research Intern | Kantar (IMRB) · New Delhi *May 2026 – Jul 2026*

- Worked on live market research and data-acquisition projects, including Project Google Search-Pre and Post Wave and the Sellers-2026 Brand Health Tracker Wave 2, gaining exposure to survey design, sampling, and data quality checks
- Demonstrated strong self-motivation to learn new skills, with performance exceeding expectations and all project milestones completed on time with quality

Marketing Analyst | Invest 2 Realty · Noida, U.P. *May 2024 – May 2025*

- Generated real estate leads through field visits and client engagement while maintaining structured Excel databases to track pipeline, follow-ups, and conversions
- Used Excel to clean and sort data using Pivot Tables and Power Query, improving accuracy and speed of pipeline reporting
- Delivered client presentations and coordinated with internal teams to improve communication, gaining strong insights into market dynamics and data-driven sales strategies

ACADEMIC & LIVE PROJECTS

Deloitte Australia – Data Analytics Job Simulation | Forage Virtual Internship *December 2025*

- Analyzed business datasets to identify patterns, risks, and irregularities relevant to forensic investigations

Sales & Financial Analysis – AtliQ Hardwares (Excel) *Completed*

- Analyzed 1,00,000+ rows of sales and financial data, cleaned datasets using Power Query, and performed P&L analysis (Net Sales, COGS, Gross Margin) across monthly, quarterly, and yearly periods
- Built 4+ interactive Excel dashboards using Power Pivot, tracking 10+ KPIs including revenue trends, product performance, GM%, and regional sales

Business Intelligence Dashboard – AtliQ Hardwares (Power BI) *Ongoing*

- Recreating AtliQ Hardwares sales and financial analysis in Power BI to build end-to-end BI reporting capability
- Designing interactive Power BI dashboards with DAX measures to track sales performance, regional trends, and KPIs
